

Commercial Recycling Policy

Since the opening of The Drop, Fraser's new pay as you throw (PAYT) trash and recycling drop off facility, a steady increase in use has been observed in the Fraser Valley. The Drop has received an increase in traffic from the event and business community from Winter Park Resort and the Towns of Winter Park and Fraser because of large quantities of cans and bottles collected.

Following many events in our community, if The Drop isn't utilized for recycling, recyclables are often hauled down to the front range for proper disposal for a considerable cost. Providing provisions for commercial use of The Drop can reallocate these costs to support local recycling.

Currently, The Drop is solely financed by PAYT trash bags and donations with a remaining gap between costs and revenues to support The Drop. Establishing a donation requirement for businesses and events that desire to utilize The Drop for disposing of recyclables will provide a local economic benefit to the surrounding communities.

Accordingly, the Town has adopted the following requirements for public use of The Drop:

- Any commercial or private collection of approved recyclables will be required to pay a minimum donation of \$30 to The Drop for every $\frac{1}{2}$ dumpster filled.
- The required donation must be presented at time of disposal at The Drop.
