

Hello Mr. Cwilkin,

You may have received some prior correspondence regarding the National League of Cities Service Line Program. We are the only service line program endorsed by the National League of Cities and partnered with 17 other State Leagues. Currently we are partnered with over 650 municipalities and utilities across North America, including 5 in CO. I'd like to set up a time to discuss this valuable program with you.

A few benefits of our program:

- Over \$454 million in repair costs saved over the last three years for 3.7 million homeowners
- No cost or liability to town to participate
- Ongoing revenue stream for town
- No public funds used; completely administered by us; turnkey approach
- Reduces call to town from homeowners regarding lateral line issues
- Town does not need to own or operate utility to participate
- Do not need to be NLC or state league member to participate
- Participation is always voluntary for homeowner

This conversation should take no longer than 20 minutes and will be used to discuss how our program may benefit your town and your homeowners. Please let me know the best date and time for you. I look forward to hearing from you.

Kindest Regards,
Dennis
