

MEMORANDUM

TO: Transit Advisory Committee
ATTN: Ivy Compton

FROM: Terry Stanford

DATE: 3/31/2021

SUBJECT: Lift Service at Rendezvous

Rendezvous is requesting to expand its existing lift service which currently consists of 3 stops along Rendezvous Road in Fraser. We are requesting that 4 additional stops be added as depicted on the accompanying map. The additional route will loop through Friendship Drive and increase the current length of travel through Rendezvous by 0.9 miles. Each of the proposed new stops will be located along public streets that are maintained by the Town of Fraser, including snow removal. The bus will continue to access Hwy 40 at the existing traffic signal at Rendezvous Road.

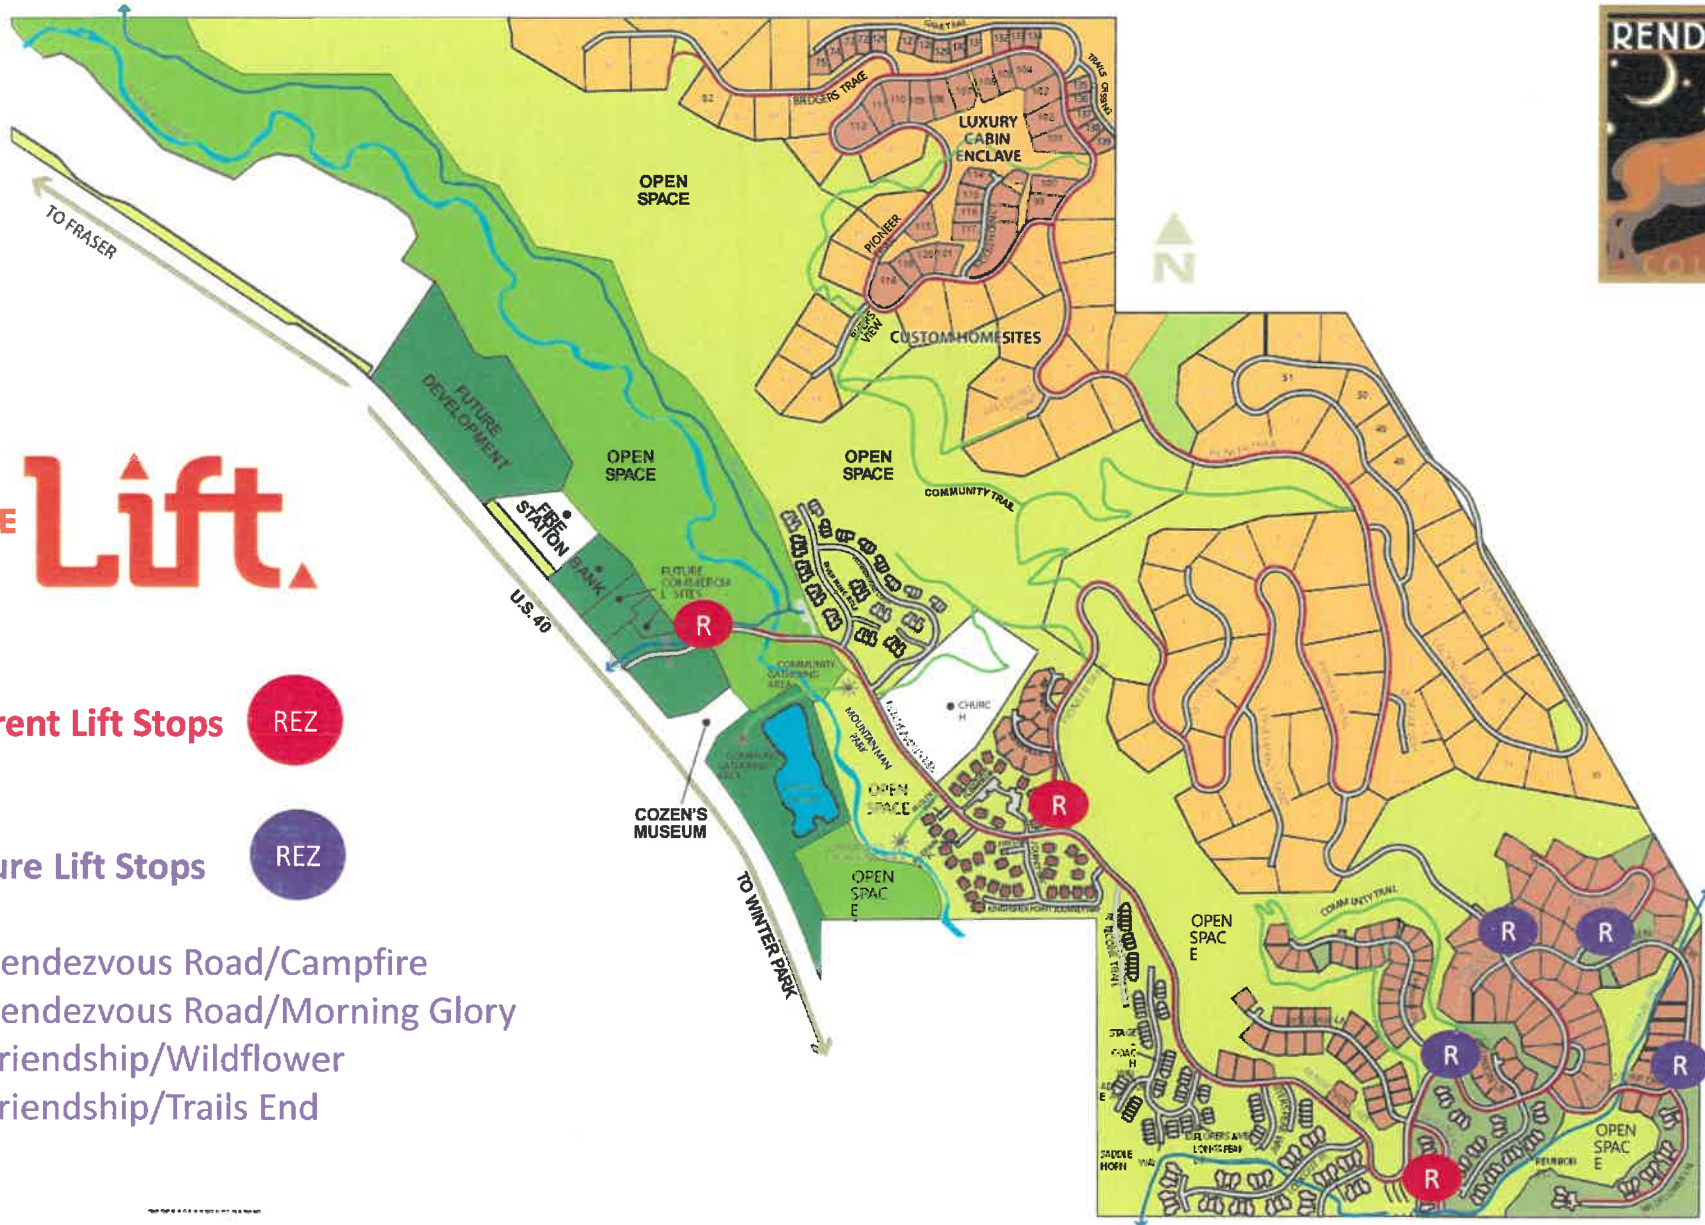

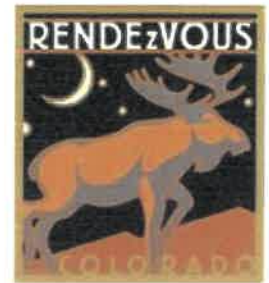

This expanded route will provide service to approximately 150 multifamily and single family homes. Many of these homeowners rent their units, especially during ski season, so there would be a large number of visitors to the Winter Park area that would be taking advantage of the expanded service, as well as our primary homeowners and their families and guests. The expanded bus service ridership would result in a significant reduction of traffic on Highway 40 during peak travel times as well as alleviate parking congestion at the Resort. Ski storage for our residents is provided at Club Rendezvous, which reduces the need to transport a large number of skis and boards on a daily basis.

Rendezvous has operated a private shuttle for several years to transport our homeowners and their guests to the Resort. Renters have not had access to the shuttle due to capacity limitations, and so this is a significant number of potential riders that are not accounted for. The total number of riders per month and per season for the last three seasons is attached and averages 2,825 per season. This compares to the number of Lift riders for the 2019 – 2020 season, also attached, which totaled 2,402. These numbers indicate the Lift ridership at Rendezvous will approximately double if the extended route is approved.

Fraser will discuss appropriation of funding for this project at their town board meeting, currently anticipated for 4/21/2021. Following Fraser's meeting and prior

to the TAC meeting in May, Rendezvous will solicit letters of support from our various HOAs and homeowners situated along the proposed route extension.

Please let me know if the TAC needs any additional information between the time of this application and their next meeting in May.

THE Lift.
