Background:

This property is zoned Planned Development District and we are processing a Final Plan and a Major Subdivision Final Plat. The Rendezvous development is subject to the requirements contained in the 2003 Rendezvous Annexation Agreement and Planned Development District Plan (PDD), Reception # 2003-016735.

This subdivision application is being processed as a Major Subdivision. The purpose of a major subdivision plat is to divide one (1) or more parcels of land into a total of five (5) or

more lots, or to divide one (1) or more parcels of land into one (1) or more lots requiring public improvements. See Fraser Land Development Code Sec. 19-3-210.

This proposal relates to a portion of Planning Area 9E as shown on the Rendezvous PDD Plan.

The entitlements in the original PDD for this planning area (approximately 19.9 acres) allow for 160 attached residential units with an average density of 8 units per acre.

During the development review and approval of EMF10,12 residential units were transferred from Planning Area 9E reducing the entitlements to 148. Also, EMF9 has 54 attached residential units approved, further reducing the entitlements to 94 units.

The applicant is proposing 22 single family attached and 11 single family detached homes sites on 6.52 acres. See project narrative. The primary access will be provided via Rendezvous Road and Pioneer Trail. The internal streets shall be private and maintained by the Association.

The applicant has submitted a variance request to allow Road B and C to be constructed as dead-end roads with hammerheads. The PC reviewed this variance request and concurred that topographic restraints prevent connecting Roads B and C.

Pending any issues that may arise at the public hearing, staff recommends approval of this Final Plat and Final Plan with conditions.
