

Fraser Business Enhancement Grant Application

Fraser Business Enhancement Grants are intended to support current businesses and improve the economic vitality of Fraser by encouraging enhancements to the physical appearance of business properties, improvement of public infrastructure, amenities and gathering places, and increased ADA accessibility. Grant requests of up to \$25,000 per business space will be considered. 50% project match is generally required; lower project matches may be considered for projects providing a maximum public benefit. For priority consideration, applications must be submitted by February 1, 2026. If funding for projects remain after consideration of initial applications that meet the deadline, rolling application will be considered until grant program funding for the year is exhausted.

See <https://www.frasercolorado.com/467/Fraser-Business-Incentives-and-Grant-Pro> for complete program and application details.

Project Name

Fraser Quisckstop Painting Project

Description of Project

This project will consist of repainting the exterior siding and roof of an existing commercial building located in the Town of Fraser. The improvements are intended to maintain the structural integrity of the building while enhancing its overall appearance. Due to exposure to Fraser's harsh mountain climate, the building's exterior has experienced visible wear. Repainting the siding and roof will provide necessary protection against weather-related damage, extend the lifespan of the structure, and reduce long-term maintenance costs.

Describe the benefits this project will provide to your business, the public, and the Town of Fraser?

This project will directly support the Town of Fraser's goals of improving community aesthetics and strengthening the appearance of local commercial properties. A refreshed exterior will contribute to a cleaner, more inviting streetscape for residents and visitors while reinforcing economic vitality within the town.

What benefits will this project provide to your business and to the community/ Town of Fraser?

Repainting the building's siding and roof will provide long-term benefits to both the business and the Town of Fraser. For the business, the improvements will protect the structure from weather-related damage, reduce ongoing maintenance needs, and enhance the building's overall appearance. A well-maintained exterior creates a more welcoming environment for customers, supports positive first impressions, and helps the business remain competitive within the local commercial area. For the Town of Fraser, this project contributes to improved community aesthetics and a stronger, more cohesive streetscape. Enhancing the appearance of an established commercial property supports economic

vitality, encourages continued investment in the downtown and surrounding areas, and reinforces pride of ownership. The project aligns with the town's goals of maintaining attractive, well-kept properties that positively reflect the community for residents and visitors alike

Time Frame of Implementation	We would like to start June 1st 2026, and be done by the 4th of July 2026
Total Estimated Cost of Project	\$23,170
Upload Itemized Project Budget	<i>Field not completed.</i>
Requested Grant Amount	\$23,170
Matching Funds Amount	\$11,585
